

The BenchMark® 460 is a fully programmable, cost effective alternative to old-fashioned permanent marking techniques for parts too large or heavy to be carried to a marking station. Its hand-held marking head is lightweight and ergonomically designed, while providing a generous 25 x 100mm (1" x 4") marking window. An electromechanical marking pin eliminates the need for any air supply, making the BenchMark® 460 truly portable.
