

DAMS- Mobile Jaw Group Packaging Machine / DGGP – 50

DAMS Gezer Çene Grup Paketleme

TECHNICAL SPECIFICATIONS

MAX. POWER	4 Kw
VOLTAGE	380 V
MAX. CURRENT	25 A
KONTROL	PLC-Touch Screen
Compressor Air Requirement	5-6 Bar

MACHINE FEATURES

CAPACITY MAX.	40 adet/dk.
MACHINE WIDTH	1055 mm
MACHINE LENGTH	5095 mm
MACHINE HEIGHT	1685 mm
MACHINE WEIGHT	570 Kg
PACKAGE WIDTH	60 - 250 mm
PACKAGE LENGTH	200- 600 mm
PACKAGE HEIGHT	20-130 mm
MAX. BOBBIN WIDTH	700 mm
MAX. Cellophane COIL DIAMETER	350 mm
INTERNAL DIAMETER OF THE BOBBIN	3 "

GENERAL FEATURES

Sandwiches and burgers which are coming from the cooling unit are placed between the alignment units by two staff manually or automatically with unmanned feeding system.

The aligned products are divided into groups of 4.5 and 6, thanks to two valves.

The number of products is controlled by the sensors during the separation of the products and the control continues until it is finished.

If desired; the slicing process takes place with the slicer system and the products reach the packaging for all grouped products.

The products that reach the packaging are transferred to the relevant unit through the robot arm.

The packaging unit is controlled by a single servo motor.

PLC is controlled from the screen. All settings, product status, performance, errors and warnings are monitored from this screen.

During packaging, it stops automatically when it does not see the product and prevents waste of empty packages.

Thanks to the spot-controlled photocell, there is no package loss.

Uses the mobile jaw system

All surfaces are made of food grade 304 Cr-Ni materials.

Best Regards,

DAMS

All around the world

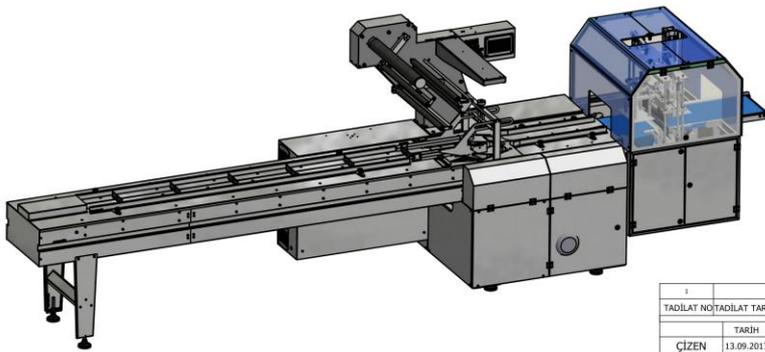

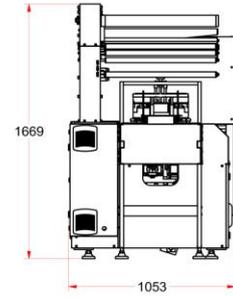

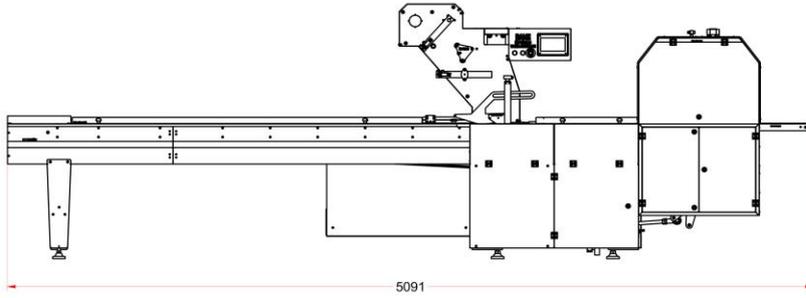

Offers only perfection
