
Quotation

Offer No: CH2257S

Date: May 7, 2022

S/N	Product Name & Quantity	Unit Price	Total Price
1	HQJ-1100D(A4) Cross Cutting Machine, 1set	FOBNINGBO US\$ 108,000	FOB NINGBO US\$ 108,000
	Total		US\$ 108,000

*This quotation is valid for 30 days.

**All the above prices and conditions are subject to our final confirmation

Terms of Payment: 30% T/T in advance (as a deposit) , the balance should pay before delivery(After Check machine picture and running video perfect

Delivery Date: Within 50 days after receiving payment of deposit.

HQJ-D (A4) Model

PLC High-precision paper cutting Machine with packing in complete line

Machine Specifications :

1.Usage: This machine is specialist for horizontal and vertical cutting paper rolling materials to A4 size sheets .it can be with 1 roll, or 2rolls, or 4 rolls etc

2.Main Technical Parameters

Model	HQJ-1100D	HQJ-1400D
Max unwinding diameter	φ 1400mm	φ 1400mm
Reference weight of cutting paper	40~500g	40~500g
Max cut width	1100mm	1400mm
Cutting length	20-1000mm	20-1000mm
Cutting speed	10-160times/min	10-160times/min
Cutting precision	± 0.2mm	± 0.2mm
Voltage:	AC380V/220V x 50HZ	AC380V/220V x 50HZ
Total power	22KW	23KW
Main function	1) can be 1 roll,2roll,4 rolls loading 2) With paper stacker 3) With round cutter for slitting 4) With belt transferring automatic to packaging unit	

More pictures:

Loading system with 4 paper rolls: (Pneumatic automatic loading)

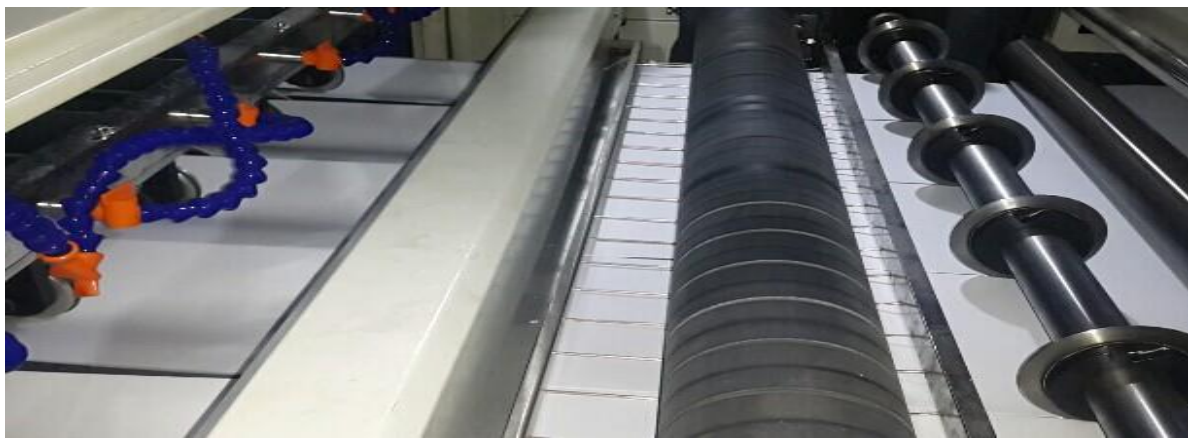

Unwinding rolls (maximum diameter can be 1400mm): can be with 1

paper roll system ,or 2 paper roll system or 4 paper roll system

Slitting knives and cutting unit: (High cut precision $\pm 0.2\text{mm}$)

Packing unit

After packing complete a4product

3.Performance and Characteristics:

- Adopts pneumatic automatic materials loading system with much easy operation and convenience
- Adopts down-up recurrent cutting with orderly finished products and without water caltrop; meantime, it can be used for horizontal cutting and vertical cutting at one time
- It adopts servo motor for controlling constant-length cutting.
- It adopts PLC control, contact screen operation
- It adopts pneumatic, displacement sensor for controlling transmission system, with photoelectric, gas together, it has the function of easy operation, high precision, good stability, low noise.
- This machine has the function of the frequency converter timing device, automatic counting, stop working by alarm, magnetic powder tension control, can be vertically, adopt blower fan to get rid of waste
- It has the functions of high-precision of cutting, high speed, etc. pneumatic structure combined with computer control be adopted for transmission section, making it become much more steady operation

- It has the function of automatic stacking which is in order . Photoelectric auto tracing subtense system

配件清单 SPARE PARTS LIST

名 称 Specification	数 量 Num	备 注 Rmark
Spare parts		
圆刀 Round cutter	56sets	
圆刀片 roud blade	10 pics	
横切刀 Cross cutter	2 pic
