

# HORNET

# LIGHTWEIGHT AND POWERFUL

## GET TO WORK

- Single-click hose connection, thanks to the **fast connector**.
- Readily available flame thanks to **synchronised piezo ignition**, with a single press on the trigger.
- **Interchangeable burners**, with no tools needed.
- Easy **self-maintenance**: changing the trigger / piezo-ignition also requires no tools.

## POWER AND PRECISION

Offering a high level of performance with its targeted flame, the **HORNET gun** has a range of burners from 30 to 160 kW.

## USER COMFORT

- **Very lightweight** (about 500 g), to reduce the risk of musculoskeletal disorders (MSDs).
- **Attenuated sound level** (< 81 dBA).
- Ready-to-use gun, operational in less than a minute, comes in a carrying case.
- Control power through the level of pressure exerted on the trigger.
- Spare trigger / piezo-ignition included in the pack.

## ENVIRONMENTAL APPROACH

The safety-handle that equips the HORNET gun contributes to a significant reduction in gas consumption and therefore:

- reduces CO2 emissions,
- **avoids the risk of causing accidental fires** on worksites and related harm to people and property.

## AFTER-SALES SERVICE

- Guaranteed for 2 years.
- Response in less than 24 hours.

## SAFETY

- **Safe ignition with low gas flow**.
- Three-position marking: changing burner, storage, ignition.
- **Safety handle** (the gun switches off when the operator releases the handle).
- Professional quality rubber hose to ISO 3821 standard.
- Gun supplied with gloves specially designed to provide optimum heat resistance.
