Dry Ice
Cleaning Machine

MINI JET COMPAKT

Mini Jet 5000,

It is used in many areas, especially in food, health, space, production, energy, defense industry and various production sectors. It is a universal solution in the industrial cleaning sector with our expert staff and developing technology. It is preferred thanks to its compact design, light weight and easy portability. In this way, comfortable cleaning can be done in hard-to-reach places. The case consists of stainless steel. It can adjust the spray pressure and feed rate according to the dirt in the area to be cleaned. It has an easy-to-use panel. It has 5 types of nozzles for comfortable use on different areas and surfaces.
