TECHNOLOGY

▶ Profitability

The increased production volume allows you to recoup your investment in the packaging machine faster and start generating a net profit.

▶ Power

The 10-line STICK MASTER allows you to pack up to 600 sticks per minute, increasing production efficiency.

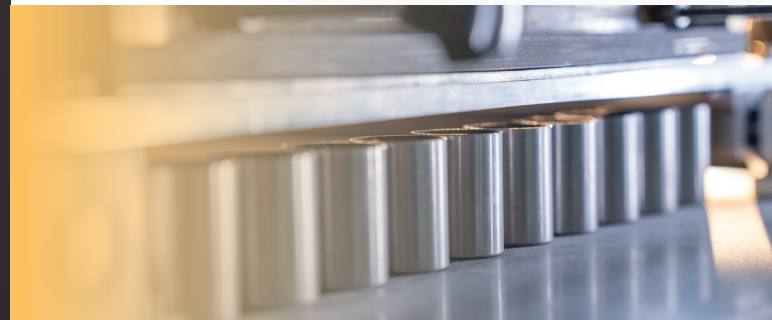

▶ Silence

The STICK MASTER X10SE is equipped with an electric drive of working units, ensuring quiet operation and reducing additional equipment costs.

▶ Automation

Automating the packaging process reduces the need for a large workforce, minimizing the negative impact of human error.
