TECHNOLOGY

▶ **Efficiency**

The vertical design of the equipment allows large volumes of products to be processed quickly, which helps to increase productivity.

▶ **Reliability:**

LIQPACK is made of stainless steel, which provides high corrosion resistance and durability and guarantees compliance with hygiene and safety standards.

▶ **Multifunctionality**

The LIQPACK 90SV can be equipped with a date coding system and a notch for easy opening of stick packs. This simplifies the product labeling process and ensures ease of use for end users.

▶ **Versatility**

The LIQPACK 90SV can handle a wide range of liquid products from the food and cosmetics industry, making it a versatile technical solution.
