## ALEMİN MAKER WITH FILTER ATTACHMENT MACHINE

The ALEMİN MAKER is known for producing the highest-quality cigarettes of any machine on the market. It's highly efficient, easy to use, and can handle virtually any tobacco type. The ALEMİN-MAKER provides a reliable and predictable output, contributing to its remarkable total-life and low-cost ownership. It is a mechanical, fully automatic cigarette maker that can churn out about 2000-2500 cigarettes per minute. This machine consists of a Cigarette maker and filter assembler.

- ✓ **D Double Knife, Max 15 Multiroll 1117 InfeedUnit**
- ✓ **2000-2500 Cigarettes Per Minute**
- ✓ **PLC Controlled System with HMI Touch Display (Delta standard)**

MACHINE TYPE	ALEMİN FILTER ATTACHMENT MACHINE	MACHINE TYPE	ALEMİN CIGARETTE MAKING MACHINE
FILTER TIP ATTACHMENT	6UPS / 4UPS	MACHINE SPEED	CIGARETTES PER MINUTE (2000-2500)

## **ALEMİN PACKER (HLP)**

The ALEMİN HLP cigarette packing machine packs approximately 10 or 20 cigarettes per box, or any number specified by the customer as per requirements. Cigarettes are packaged in a packet box and wrapped in aluminium foil paper. This machine features Delta PLC controls for simplified operation. This machine generates approximately 100-120 packets per minute in a variety of configurations, including D-type, Bevel Edge, Round Corners, and Square Corners. The cigarettes packed here can be of any style, including slim, super slim, regular, and king size, and 10 or 20 cigarettes can be packed per box in any collation.
