ABOUT US

DENKROM Makine established at 2017. The company is manufacturer of fresh milk making machines, yogurt-fruit, yogurt making machines, mozzarella cheese, feta cheese, white cheese, cream cheese, curd cheese, akkawi cheese, edam cheese and gouda cheese making machines, Kaymak (Cream) making machines and all kind of dairy process machines. Our main target is making best production by our face and Denkrom brand. Our focus point is customer satisfaction. From beginning till installation, We service to our buyers.

In addition to production, We make installation and give dairy products guidance service.

DENKROM Makine has dairy chefs in company. After the each business, We can bring our chefs for teach production of dairy product.

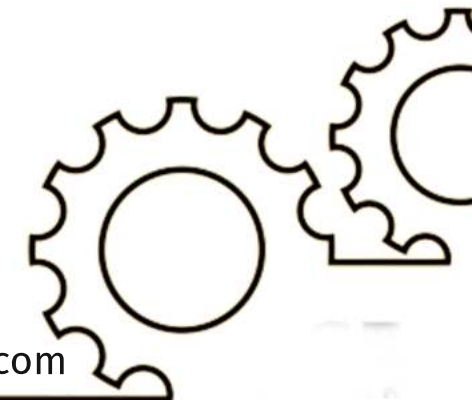

We give importance to the phase of technical service.

Our all machines have PLC Screen with remote control.

We can fix to unusal errors remotely when any problem appears at your production zone. Lastly, We believe that to strong relationships with our buyers. We think that Your order and your business plans are like our own business and our own plans. We wait you to our quality business life and guidance and we wait your esteemed orders.

Best Regards

Kadir AKINCI
