

# ABOUT US

MBA Asphalt Machinery Company was established in Turkey in 2020 by engineers with 15 years of industry experience.

Its main field of activity is the production of asphalt plant and equipment. It operates in Iraq, Ukraine, Russia and Turkey.

01

# ■ WHAT WE DO ?

EQUIPMENT  
PRODUCING

We produce bitumen tank, hot oil boiler, bitumen emulsion plant, modified bitumen plant.

SPARE PARTS

We sell Asphalt Plant, Concrete Plant and Crushing and Screening Plant Spare parts.

MAINTANANCE

We find the problems of old plants and do maintenance.

# ■ BITUMEN TANK

- Horizontal bitumen tank production in the range of 40-100 tons capacity.
- Vertical bitumen tank production in the range of 40-5000 tons capacity.
- Hot oil heated or electrically heated options
- Insulation with rockwool
- Agitator option for bitumen emulsion or pmb

# HOT OIL BOILER

- 250.000-3.000.000 kcal/h capacity
- Italian burner
- Liquid or gas fuel option
- Insulation with rockwool
- Pressure and temperature safety system
- Heat resistant, fan cooled hot oil pump

# ■ BITUMEN EMULSION PLANT

- 5-20 t/h production capacity range
- Stainless steel solution tank
- High quality homogenizer mill
- Automatic or manual operating system
- Multi-language plc system
- Easy shipping dimensions

# ■ MODIFIED BITUMEN PLANT

- 5-20 t/h production capacity range
- Mixer tanks providing high homogeneity
- High quality high-shear mill
- Automatic operating system
- Multi-language plc system
- Easy shipping dimensions
