

BONNY MATERIAL HANDLERS

SICHUAN BONNY HEAVY MACHINERY CO., LTD

Advantages of Bonny Material handler

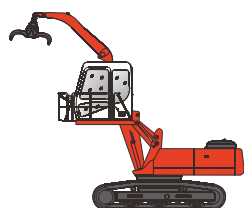

1. Specially designed for material handling purpose with high efficiency, not simply modified from an excavator.
2. Upgraded diesel engine with Tier III or Tier IV emission with better energy saving and environment friendly.
3. Electric model and Dual power model available featured as zero emission, low noise, low operating & maintenance cost, good adaptability to high ambient temperature and etc.

ADVANTAGES

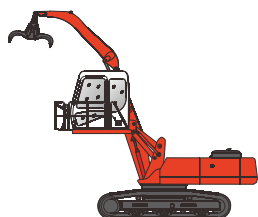

4. Further optimized attachment for wider working scope and higher efficiency.
5. Customizable grab for different materials to improve capacity and productivity.
6. Expanded undercarriage to enhance stability.

GANTRY TYPE

Diesel type

Electric type

Dual power type

Rigid elevation

Hydraulic elevation

Forward sloping

Standard crawler

Crawler pylon

Stationary

Mobile type

Rail gantry type

Crawler gantry type

Type I: Straight boom, angled stick

For max. grabbing reach and max. grabbing height

Type II: Angled boom, angled stick

For max. grabbing depth

Type III: Three arms

Increase the lengthwise grabbing reach under a certain grabbing height to maximize the utilization rate of the working site

Orange peel grab

Semi-closed type

Open type

Clamshell grab

Without teeth type

With teeth type

Timber grab

Magnet plate

Suspension type

Scrap shears

Others

Direct connection type

Station Yard

Timber Handling

APPLICATION

Port Application

Dredging

Waste Disposal

Serialization, customization, professionalization!
